

## **Incavo Statement on the Restriction of Hazardous Substances (RoHS) Directive**

Incavo is committed to ensuring our operations, products and services comply with applicable environmental, health, and safety regulations. As such, Incavo has in place policies and controls for continual improvement in environmental sustainability.

In application of our policies, Incavo's current products are designed and manufactured to comply with the European Union Restriction of Hazardous Substances (EU RoHS) Directive 2011/65/EU.

The EU RoHS Directive 2011/65/EU restricts the use of six substances in electrical and electronic products:

1. Lead (Pb)
2. Mercury (Hg)
3. Cadmium (Cd)
4. Hexavalent chromium (Cr VI)
5. Polybrominated biphenyls (PBBs)
6. Polybrominated diphenyl ethers (PBDEs).

Product compliance is assured when considering the application of appropriate EU RoHS Exemptions. Additionally, Incavo works closely with supply chain partners to assure compliance with laws and regulations on restricted materials for all products and materials supplied by partners.

For more information on Incavo's environmental policies and compliance, please contact our Hong Kong office.
